Press Sales

Sales in Nigeria, Venezuela and Curacao

Tacoma, WA, June 15th – WebPress LLC is pleased to announce sales of new press lines in Nigeria, Venezuela and Curacao. All three lines feature WebPress' nameplate Quad-Stack 4-high press combined with other ancillary items. Customers have chosen the Quad-Stack because of its excellent print quality, tight registration, low waste and compact single-level design.

Shipment to Curacao was made in the second quarter, with shipments to Nigeria and Venezuela expected in Q3 and Q4 of this year.

WebPress is located in Tacoma, WA, in the same building as its affiliate, Globe Machine. Globe has been in the precision machinery business over 95 years, and brings the latest in electronic controls and automation to WebPress.
